

PDG Mobility Bentley

The Bentley offers up to 20° tilt for comfort and postural support. Its steel frame provides a high level of stability and durability.

The Bentley's front pivot design maintains the front seat-to-floor height and can allow users to keep their feet on the ground even when the chair is fully tilted – a perfect solution for foot propelling or standing transfers.

Exclusive features

- Ability to hand and foot propelling in a tilted position with no knee-rise
- User tilt activation for additional independence
- Short wheelbase for manoeuvrability
- Adjustable rear axle position for centre of gravity changes

Available options (see order form)

- Transit tie downs WC-19 & ISO-7176-19
- 30° manual dynamic recline
- Power tilt
- Drum brakes
- Floor jacks
- Easy-Out front rigging
