

Dreamline G7 Cushion

Learn more about the
Dreamline G7 cushion

The Dreamline G7 cushion has a soft and comfortable feel, yet unyielding stability with a mild contoured base for easy transfers. Pressure redistribution is effective through its patented Cluster Gel Fluid packs, which are neatly hidden in a unique secure zip-up compartment.

Key Features

- **Immediate Comfort.** The soft Comfort Wrap with the new FLO2™ fabric gives superior immersion and long-term sitting comfort.
- **Stability.** A firm, mildly contoured positioning base with a deep well, providing active users with a stable base of support.
- **Pressure Protection.** Large dual Cluster Gel Fluid packs nestled in 3cm of Enduro foam provides effective protection from skin breakdown, all secured within the FLO2™ cover for extra protection during transfers.

FLO2™ 4-Way Stretch Fabric

FLO2™ is an advanced high-performance 4-way stretch fabric that utilises an engineered warp knit design to naturally facilitate moisture wicking and air exchange, helping to keep users cool and comfortable. The properties of the material enable the fabric to conform to the contours of asymmetrical configurations whilst providing skin protection through maximum immersion.

Technical Specifications

Weight Limit	136kg (300lbs) - Up to 20"	
Weight of Product	3.46kg* (7.62lbs)	
Width	12" - 20" (30.5cm - 50.8cm)	
Depth	12" - 22" (30.5cm - 55.9cm)	
Pelvic Well	1.8" (4.5cm)
